

## BALAJI NAGENDRA MENDU

E – Mail: [balajimendu190@gmail.com](mailto:balajimendu190@gmail.com), Mobile No: (+91) 9989062995

### Career Objective

Looking for growth-oriented position in an organization, which would bring out the best in me contributing towards the organization's success and enhancing my knowledge.

### Professional Summary

Results-driven **IT Professional** with over **16+ years** of progressive experience managing complex enterprise environments across **Oracle Cloud Infrastructure (OCI)**, **Oracle Integration Cloud (OIC)**, **Visual Builder Cloud Service (VBCS)**, and **Oracle E-Business Suite (EBS)** with **WebLogic**. Demonstrates deep expertise in **OCI and OIC integrations**, **cloud architecture**, **automation**, **performance optimization**, and **DevOps methodologies** for **high-availability**, **mission-critical systems**. Adept at **Oracle EBS administration and optimization**, with strong proficiency in **WebLogic**, **SOA Suite**, **Terraform**, and **OCI-based automation**. Highly focused on delivering **secure**, **scalable**, and **operationally excellent solutions** for **global 24x7 enterprises**.

### Core Competencies

**Cloud & Infrastructure:** OCI (Compute, Storage, VCN, IAM, Autonomous DB), Terraform, OCI CLI/SDKs

**DevOps & Automation:** Terraform, Ansible, Docker, Jenkins, Git, CI/CD pipelines

**Middleware & Integration:** WebLogic, SOA Suite, OID, OAM, OBIEE, Fusion Middleware

**Database Administration:** RAC, Data Guard, RMAN, Performance Tuning, DR & HA

**Security & Compliance:** Cloud Guard, Vault, Security Zones, IAM Policies, Auditing

**Monitoring & Troubleshooting:** OCI Monitoring, JVM Tuning, Apache, Forms, Concurrent Manager

### Key Achievements & Responsibilities

- **Strategically managed and optimized Oracle Cloud Infrastructure (OCI) environments**, delivering robust, scalable, and secure compute, storage, database, and networking solutions for mission-critical operations.
- **Architected and automated infrastructure provisioning and deployments** using **Terraform, OCI SDKs, Jenkins, Ansible, and Docker**, streamlining cloud workflows and enforcing best practices.
- **Designed and administered sophisticated integrations on Oracle Integration Cloud (OIC)**, seamlessly connecting **Oracle Fusion, E-Business Suite (EBS)**, and third-party applications via **REST, SOAP, and ERP adapters**.
- **Engineered and supported enterprise-grade applications and process extensions on Visual Builder Cloud Service (VBCS)**, advancing business capabilities and user experiences.
- **Expertly administered Oracle WebLogic domains and Oracle E-Business Suite**, leading migrations, patch management, and automation of DBA tasks for operational excellence and minimal downtime.
- **Enhanced cloud security and compliance** via **Cloud Guard, Security Zones, and audit mechanisms**, ensuring top standards of data protection and reliability.
- **Collaborated with cross-functional teams and Oracle Support** to drive optimal system performance, scalability, and rapid incident resolution across global environments.

## Education & Qualification

### Master of Business Administration (MBA), Human Resources

Acharya Nagarjuna University — 2011

### Bachelor of Technology (B.Tech), Computer Science & Engineering

Acharya Nagarjuna University — 2008

## Professional Training and Certifications

- **Oracle Cloud Infrastructure (OCI) 2025:** AI Foundations OCA, Foundations OCA, Generative AI OCP, Migration Architect OCP, Certified DevOps Professional, Certified – Application Integration
- **Oracle Cloud Infrastructure (OCI) 2019 & 2020:** Cloud Architect Professional, Cloud Operations OCA
- **Oracle SOA Suite 12c:** Oracle Certified Specialist (OCS)
- **Oracle WebLogic Server 12c:** Admin Certified Professional
- **Exadata Database Machine (2017):** Oracle Certified Specialist (OCS)
- **Oracle Linux 5 & 6:** System Admin OCA
- **Autonomous Database Cloud (2019):** Oracle Certified Specialist (OCS)
- **ITIL Foundation V4:** Certified
- **Microsoft Azure:** Fundamentals with AI & Azure Administrator Associate

## Experience

### Senior Oracle Consultant

Ascendion Digital Solution Pvt Ltd | 26<sup>th</sup> June 2025 – 30<sup>th</sup> September 2025

- **Experienced in Oracle Cloud Infrastructure (OCI):** Provisioning and managing compute, storage, networking, and database resources, with a strong focus on IAM, HA/DR, compartmentalization, monitoring, and cost optimization to maximize resilience and efficiency.
- **Expert in cloud security:** Implementing and enforcing security policies, encryption, audit logging, and access controls to safeguard sensitive data and maintain compliance.
- **Skilled in Oracle Integration Cloud (OIC):** Designing, developing, and administering complex integrations across Fusion SaaS, E-Business Suite, and third-party systems using REST, SOAP, FTP, and ERP adapters to enable seamless business workflows.
- **Experienced in automation and DevOps:** Utilizing Terraform, Ansible, and Git to automate infrastructure provisioning, streamline environment setup, and ensure consistency across deployments.
- **Proficient in CI/CD pipeline integration:** Connecting OCI with leading tools such as Jenkins, Git, Ansible, and Docker to promote automated testing, continuous delivery, and agile change management.
- **Strong troubleshooting and SLA management:** Monitoring systems, performing root cause analysis, incident response, and capacity planning to ensure secure, reliable, and scalable cloud operations that consistently meet or exceed service-level agreements.
- **Adept at environment maintenance:** Applying patches, upgrades, backups, and disaster recovery strategies to ensure high availability and business continuity.

## Senior IT Consultant

Oracle India | 28th Nov 2016 – 03rd April 2025

- **Directed architecture and operations of Oracle Cloud Infrastructure (OCI)** across compute, storage, networking, and database layers, achieving **20% reduction in operational costs** through optimized resource utilization and automated scaling.
- **Designed and delivered enterprise-grade integration frameworks on Oracle Integration Cloud (OIC)**, connecting Oracle Fusion SaaS, E-Business Suite, and third-party platforms using REST, SOAP, FTP, and ERP adapters — **improving data synchronization accuracy by 35%**.
- **Developed custom web and mobile applications using Oracle Visual Builder (VBCS)**, extending Oracle Fusion ERP capabilities with integrated OIC workflows, REST-based APIs, and responsive UI designs that **increased user productivity by 25%**.
- **Led multiple digital transformation initiatives** leveraging VBCS (UI), OIC (Integration), and OCI (Infrastructure) to automate complex business processes, **reduce manual workflows by 40%**, and enhance operational agility.
- **Implemented end-to-end DevOps pipelines** with Terraform, Ansible, Jenkins, and Git, **reducing deployment time by 50%**, ensuring security compliance, and standardizing multi-environment configurations.
- **Administered and tuned Oracle WebLogic and SOA Suite environments** — optimizing JVM performance, implementing DR strategies, and **achieving 99.98% uptime** across mission-critical middleware systems.
- **Directed incident management and root cause analysis (RCA) programs** under strict SLA terms, **reducing mean-time-to-resolve (MTTR) by 30%** and elevating infrastructure reliability and service continuity metrics.
- **Partnered with cross-functional teams** (DBA, network, and application leads) to **architect scalable, secure, and compliant enterprise cloud solutions** aligned with organizational KPIs and IT governance frameworks.

## Senior Oracle Apps DBA

Infosys (Contractor via Datacore Technologies) | 22ndJul2015–30thSep2016

- **Conducted comprehensive operational analysis and functional implementation of Oracle Applications R12**, ensuring seamless legacy application maintenance and business continuity.
- **Managed support calls (TPRs) via Remedy**, efficiently analyzing issues and delivering timely resolutions to enhance user satisfaction and operational performance.
- **Deployed and managed Oracle SOA Suite**, including **data source creation, JMS destinations, and web service security**, to enable robust and secure enterprise integration.
- **Maintained production SOA instances to ensure high availability**, proactively addressing performance and reliability concerns.
- **Led backup and recovery activities for Oracle SOA Suite dehydration store**, safeguarding critical business process data.
- **Configured JDBC Connection Pools and Multipools for Oracle, MySQL, DB2, and SQL Server** to optimize connectivity and data access across platforms.
- **Administered, monitored, and troubleshot WebLogic Server environments** using **Admin Console and JMX**, ensuring stable and efficient middleware operations.
- **Installed, configured, and managed Oracle BPEL, ESB, and BAM**, enabling seamless and agile business process integration.

## Tech DBA

Yahoo Inc. (Contractor via Softsol India) | 09th Mar 2015 – 17th Jul 2015

- **Provided expert database administration support for Yahoo's infrastructure**, ensuring optimal performance, reliability, and uptime for mission-critical systems.
- **Managed database installations, patching, and upgrades** to maintain seamless operations and up-to-date environments.
- **Performed advanced performance tuning, query optimization, and troubleshooting**, effectively resolving complex database-related issues.
- **Implemented robust backup and recovery strategies**, safeguarding data integrity and enhancing organizational security.
- **Collaborated closely with development and operations teams** to streamline database processes and drive continuous improvement.

## Sr. Consultant

Capgemini Consulting India (Contractor via I-Fact Technologies) | 01st August 2012 – 27th February 2015

- **Performed daily health checks** to ensure optimal system stability, availability, and capacity planning.
- **Applied patches, upgrades, and cloned instances** as part of routine system maintenance and lifecycle management.
- **Configured and managed printer setups** and user-related environment settings, delivering streamlined support for operational continuity.
- **Raised and monitored Meta-Link Technical Assistance Requests (TARs)** to expedite patch updates and critical support issue resolution.
- **Defined and configured new Concurrent Managers**, optimizing process scheduling, resource allocation, and workload balancing.
- **Monitored concurrent processing jobs and resolved execution failures** to ensure smooth batch processing and timely completion of business operations.
- **Managed user accounts, security permissions, and responsibilities** to enforce access controls and compliance within the system.
- **Generated and analyzed system, error, and output logs** to proactively identify and resolve operational issues.
- **Collaborated with cross-functional teams** (DBAs, developers, support) to address incidents, implement enhancements, and improve system performance.
- **Created and maintained comprehensive system documentation**, including change logs, configuration records, and support procedures.
- **Provided end-user training and support**, promoting best practices and efficient system usage across the organization.

## Consultant

ITC Infotech (Contractor via I-Fact Technologies) | 04th May 2009 – 31th July 2012

- Managed daily production database activities, including monitoring growth and performance.
- Applied patches for enhancements and bug fixes using **Ad Patch** and **O-Patch**.
- Cloned **Oracle E-Business Suite 11i** instances for development and testing purposes.
- Created and managed custom **Concurrent Managers**, including:
  - Starting and stopping concurrent managers.
  - Rescheduling requests and purging historical concurrent request data.
  - Performance tuning and monitoring concurrent manager operations.
- Administered and supported **Oracle Application Manager (OAM)**.
