Experience Summary

- Having 8+ years of experience **Oracle Applications Development , Fusion and OIC .**
- Strong experience in designing and developing technical solutions for Oracle Applications including conversions, Inbound/Outbound Interfaces, reports development and AOL Objects.
- Highly conversant with various modules of Oracle EBS Applications– INV,PO, AP, AR, OM,GL
- Good Experience in Oracle Technologies like **SQL, PL/SQL.**
- Design and configure **FBDI/ADFdi** templates for bulk data loading.
- Develop integrations using **OIC (REST/SOAP connectors, file-based, SaaS/PaaS).**
- Good experience in **BIP and OTBI reports**
- Experienced in working with Oracle SR's (Creation and follow-ups) to resolve the standard process issues.
- Good Exposer on SCM modules
- I am having good work experience on HRMS module
- Involved in various stages of Analysis, Design, Development, Testing, Implementation and Post Go-Live of application development process.
- Strong in PL/SQL programming like development and customization of Packages, Procedures, Functions and Triggers.
- Well versed in using SQL* Loader and UTL_FILE Package.
- Knowledge on creation of Value sets, Executables, Concurrent Programs and Request sets.
- Having good knowledge about AOL, System administration and coding standards in
- Worked on various EBS UP-Grade Projects.
- Good experience on P2P and O2C cycles
- Good exposure on Oracle manufacturing (INV module)

Education

- Bachelor of Technology (B Tech ECE) from Nalanda Institute of Engineering & Technoogy, JNTU Kakinada University .

ORACLE APPS TECHNICAL AND FUSION PROFILE

Professional Experience

Organization	Designation
ZENSAR technologies	Technical Specialist – Since Jul 24 to Oct 25
Bonbloc Technologies Pvt Ltd	Senior Software Engineer – Since Dec 23 to Jun 24
GLOBESTAR SOFTWARE LIMITED	Senior Technical Consultant - Oracle Applications Since May 22 to Nov 23
CES Global IT Solutions Pvt Ltd	Senior Consultant - Oracle Application Since Mar 21 to Apr 22
HPC Consulting PVT LTD	Technical Consultant – Oracle Applications Since June 17 to Feb 21

Oracle apps Technical Skills

ERP Modules	Oracle Application R12
Programming Languages	PO, INV, OM, AP,AR, GL
Databases	SQL, PL/SQL
Tools and Utilities	Oracle 12c
Reporting Tools	Toad, WinSCP, SQL*loader, Putty, XML Publisher

Oracle Fusion Technical Skills

Category	Tools / Technologies
Fusion Modules	Financials (GL, AP, AR, FA), HCM, SCM, Procurement (PO)
Reporting	BI Publisher (BIP), OTBI, Smart View, FRS
Data Upload Tools	FBDI, ADFdi, HDL, HSDL
Integration	Oracle Integration Cloud (OIC), REST/SOAP APIs

ORACLE APPS TECHNICAL AND FUSION PROFILE

Project #6

Client :Cloud9 -Oracle Fusion Application Support

Project Type : Oracle fusion

Role : Senior Technical consultant

Duration : JUL 24 to Oct 25

Module : **SCM, FINANCE and PROCUREMENT Modules**

Responsibilities:

- Develop and customize **BI Publisher reports, OTBI dashboards, and FRS.**
- Developed 7+ BIP reports for PO, GL, AR, AP modules.
- Design and configure **FBDI/ADFdi** templates for bulk data loading.
- Develop integrations using **OIC (REST/SOAP connectors, file-based, SaaS/PaaS).**
- Build and deploy **PaaS extensions** using VBCS/APEX for business requirements not met by Fusion out-of-the-box.
- Support **data migration activities**, validation scripts, and reconciliation.
- Create and manage **custom roles**, security configurations, and access controls.
- Engage with **functional teams** to gather requirements, perform gap analysis, and provide technical solutions.
- Configure and customize **approval workflows** using BPM Worklist.
- Provide **post-go-live support**, performance tuning, and enhancements.
- Perform **unit testing, SIT, UAT** support, and documentation.

Project #5

Client : Mclane

Project Type : Oracle Apps R12, XML Publisher, Interfaces

Role : Senior Software Engineer

Duration : Dec 23 to Jul 24

Module : **SCM & FIN Modules**

Technology : Oracle Applications

Mclane is a French multinational tyre manufacturing company based in Clermont-Ferrand in the Auvergne-Rhone-Alpes region of France. It is the second largest tyre manufacturer in the world behind Bridgestone and larger than both Goodyear and Continental. In 1968, Michelin opened

ORACLE APPS TECHNICAL AND FUSION PROFILE

its first North American sales office, and was able to grow that market for its products rapidly; by 1989 the company had a 10% market share for OEM tyres purchased by American automobile makers.

Responsibilities:

- Worked as an onshore Development and Support team member.
- Worked on Data integration using DB links for connection and providing access to other system users.
- Work on XML reports using Data templates format by using multiple tables and queries.
- Data backups and Data deletions using BULK COLLECT concept with LIMIT clause.
- Custom Tables creation with proper constraints and indexes.
- As part of the upgrade project, schema calling tables were removed the prefix schemas for better performance.
- Extensively worked on PLSQL code standards using Advance COLLECTIONS.
- Created triggers to capture OLD and maintain NEW data.
- Worked on enhancements to existing packages as per the new requirement.
- Good Knowledge on Bulk Data imports using DATA LOADER concept using .Ctl.
- Good Knowledge on Data exports using UTL_FILE concept (Write the data into external file server)
- Worked on oracle seeded api's like oe_order_pub.process_orders, ar_receipt_api_pub.apply etc to use in the package and tracking seeded error with proper error handling using FND_API.MSG , FND_API.G_TRUE.
- Worked on creation of Sequences, Views, Procedures, Packages as per the client requirement.

Project #4

Client : Iron Mountain Inc
Project Type : Oracle Apps R12, XML Publisher, Interfaces
Role : Technical Specialist
Duration : May 22 to Feb 24
Module : PO, OM, INV and AR ,AP, GL
Technology : Oracle Applications

Iron Mountain Inc. is an American enterprise information management services company founded in 1951 and headquartered in Boston, Massachusetts. Its records management, information destruction, and data backup and recovery services are supplied to more than

ORACLE APPS TECHNICAL AND FUSION PROFILE

220,000 customers throughout North America, Europe, Latin America, Africa, and Asia. As of 2022 over 94% of Fortune 1000 companies use Iron Mountain's Services to store and manage Their information.

Responsibilities:

- Worked as an onshore Development and Support team member.
- Design, Development and Customization of RICE components
- Register generated reports, Flex fields. Defined Descriptive Flex fields, value sets and also registered PL/SQL stored procedures, SQL*Plus scripts etc.
- Creation of Oracle SR on seeded Functionality Errors.
- Sales Orders Inbound and Outbound Flow
- Developing the XML publisher reports
- Part of the Implementation team for procure to payment life cycle.
- Involved in Performance tuning of various queries and stored procedures.

Project #3

Client : PGCPs
Project Type : UPGRADE
Role : Senior Consultant
Duration : Mar 21 to Apr 22
Module : PO, OM, and AR,AP,INV
Technology : Oracle Applications R12

Prince George's County Public Schools (PGCPS), one of the nation's 20th largest school districts, has 208 schools and centers, more than 136,500 students and nearly 22,000 employees. The school system serves a diverse student population from urban, suburban and rural communities located in the Washington, DC suburbs. PGCPS is nationally recognized for college and career-readiness programs that provide students with unique learning opportunities, including dual enrollment and language immersion.

Responsibilities (RICE):

- Design, Development and Customization of RICE components
- Doing feasibility analysis and preparing technical design documents MD070
- Define Concurrent program, Request Sets and Executable
- Preparation of MD120 doc for Code migration and Preparation of TE020 doc for Unit Test cases.
- Worked on standard APIs on various modules.
- Worked on Vendor and Vendor Site Creation, Bank and Bank Branch Conversion.

ORACLE APPS TECHNICAL AND FUSION PROFILE

- Preparing Test Scripts.
- Developed XML reports through data Template
- Developed Interfaces like inbound and outbound interfaces
- Registration of reports using AOL script.
- Developed Outbound interface to extract data from Base tables to Flat file using the UTL_FILE Package.

Project #1

Client : Vodafone – CRM Application
Project Type : Oracle Apps R12, Reports 10g, XML Publisher
Role : Technical Consultant
Duration : Jun 17 to Feb 20

Description:

Vodafone Essar, previously Hutch is a cellular operator in India that covers 23 telecom circles in India. It offers prepaid and postpaid GSM cellular phone coverage throughout India with a good presence in the metros. Vodafone Essar is one of the topmost companies in the telecom sector in India and is well known for the best quality of products and services offered to its customers. And this is the reason that the customer base of the company Vodafone Essar Limited has been increasing at a very rapid pace. IBM is assisting Vodafone in supporting its services and applications to serve quality service to its customers.

Responsibilities:

- Creation of BI Publisher reports and registered with XML Publisher responsibility.
- Creation of PL/SQL procedures, Functions and Packages.
- Development of PL/SQL Reports Using Procedures, Functions and Packages.
- Creating Database Objects like tables, views, sequences, Indexes.
- Writing SQL queries according to customer requirement.
- Responsible for code reviewing, testing, and preparing AIM Documents.
- Developed control files for loading legacy data into staging tables using SQL*LOADER.

ORACLE APPS TECHNICAL AND FUSION PROFILE

- Writing custom packages and using APIs to develop the interface Programs.
- Customised of AP invoice aging report as per client requirement.

Interfaces:

- Developed Custom Interface used to transfer .Net data into oracle Apps.
- Bank and Bank Branch conversion, GL Daily Rates

Reports

- Developed Supplier Wise Purchase Order Report.
- Development of PL/SQL Reports Using Procedures, Functions and Packages.
